

## Friday Harbor

### Project Outline

The General Services Administration (GSA) on behalf of the US Customs Service was seeking new facilities on San Juan Island to accommodate its customs and boarder protection program. The Port of Friday Harbor wanted to pursue the requirement for a new building it was planning to develop in the City of Friday Harbor with tremendous access to the international ferry terminal.

### Services Provided

The Port of Friday Harbor retained GVA Kidder Mathews to help structure a transaction that would result in US Customs selecting the new building. GVAKM provided consulting, brokerage, construction management, and property management services for the project.

### Results

The US Customs and the Port of Friday Harbor are in discussions to formalize the lease agreement.

### Team

The team for the project included Blair Howe, Consulting Services, Mark Dyason, Construction Management, and John Wanamaker, Property Management.
